Dear Mr. President,

You recently made the unprecedented threat to shut down the entire government unless Congress continues to send taxpayer funds to subsidize the activities of one, specific political supporter of yours: Planned Parenthood.

Before you follow through on this extreme threat, I have one simple request: watch all the videos that have thrust the actions of Planned Parenthood into the public consciousness. Over the past few weeks and months, these ten videos (so far) have exposed what I believe is clear, overwhelming evidence that Planned Parenthood is engaged in the immoral, illegal and inhumane trafficking in parts from aborted babies.

I do not believe that anyone could actually watch these videos and not feel the same horror and disgust that I and millions of other Americans have experienced.

Unfortunately, these actions are not new. I recently met a woman who was pressured by Planned Parenthood 30 years ago to consent to baby part harvesting. The evidence on these videos shows this despicable practice continues unabated. No one that watches these videos with an open mind could come to any other conclusion.

Even worse, Planned Parenthood was founded by a strong supporter of eugenics, Margaret Sanger. Sanger wanted to wipe out children who look like mine and yours. Planned Parenthood not only does not deny Sanger's racist beliefs, they celebrate her by giving out awards, even today, in her name. Moreover, the locations of their clinics are clearly targeted toward minority communities.

I do recognize that Planned Parenthood is a powerful special interest lobby that endorsed you and countless other Democrats across America. I do understand that in your last election, Planned Parenthood spent over \$1 million to influence the electoral process. As a result, it might be hard for you to do the right thing when it impacts one of your biggest supporters.

Yet, as President of all of America, not just your political supporters, it is imperative that you approach this critical issue with both an open mind and a full understanding of the evidence. Until you have watched the videos, the American people can only draw one of two conclusions about you: either you are afraid of the evidence or you support the harvesting of organs from live, defenseless little babies for sale to the highest bidder.

Sincerely,
